UN PÒ DI STORIA

Un piccolo joystick in nylon nero, praticamente indistruttibile.

È la prima invenzione e il primo prodotto EDIERRE.

Era il 1982, con questo prodotto dotato del rivoluzionario sistema di aggancio alla plancia tramite una ghiera, brevettato EDIERRE, iniziava una nuova era nel settore del videogames.

Da allora l'ingegneria dell'azienda apprezzata anche in ambito internazionale ha cercato numerosi modelli innovativi e muniti di altri brevetti EDIERRE come il porta scheda e il sistema di aggancio a baionetta del supporto microswitch al corpo del pulsante.

LA SCELTA DELLA QUALITÀ

La prima vera novità è il materiale usato. I prodotti sono realizzati con materiali termoplastici affinché le parti più sollecitate durante l'utilizzo possano opporre maggior resistenza.

Sono progettati con una attenzione inedita finalizzata a semplificare l'installazione e la manutenzione da parte dell'operatore del settore sia esso un costruttore di videogames, un tecnico o un semplice noleggiatore. La scelta della qualità prosegue con i componenti elettrici che sono soltanto di prima scelta e osservanti le normative.

Infine la ricerca della affidabilità e della robustezza fin dalla fase di progettazione e la cura nell'assemblaggio completano il quadro delle caratteristiche che hanno fatto dei prodotti EDIERRE lo standard qualitativo di riferimento nel settore.

DIFFIDATE DALLE IMITAZIONI

Per i motivi suddetti i prodotti EDIERRE sono stati imitati nel design e contraffatti innumerevoli volte, in Italia e nel mondo, senza raggiungere lo standard di affidabilità degli originali EDIERRE. Ogni singolo prodotto ha il marchio EDIERRE.

È un marchio di proprietà esclusiva della EDIERRE II s.r.l., l'unica ideatrice, produttrice e distributrice, anche a livello internazionale, di tutti i prodotti contenuti nel presente catalogo.

A LITTLE BIT OF HISTORY

A small joystick made of black nylon, practically eternal.

It's the first invention and the first EDIERRE product.

It was the year 1982 and with this product, made with a revolutionary system to hook in on the placeholder, an EDIERRE registered Patent, a new era in the videogames industry started.

Since then, the engineering of the firm that has been appreciated on an international level has built many innovative products, all with patents EDIERRE such as the placeholder or the mounting system for the microswitches without bolts.

THE CHOICE FOR QUALITY

The first new thing in the material. All products are made of thermoplastic materials so the parts that are under stress can resist better during usage.

The products are projected with a special attention towards simplifying the installation and the maintenance, taken care by whoever puts them in place, an operator of the business or a technician or even just someone who rents the videogames.

The choice for quality continues by picking the electrical components that are all first choice and CE certified.

Finally, strength and durability are standards that make EDIERRE one of the leading brands for videogames accessories.

BEWARE OF IMITATIONS!

For such reasons EDIERRE products have been copied many times, in Italy and throughout the world, without reaching the quality standards of the originals. Every product has the logo EDIERRE impressed on it.

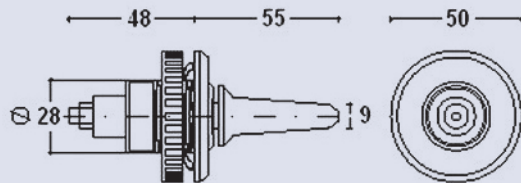

is a logo of exclusive property of EDIERRE II S.r.l., the only manufacturer and distributor, on all levels, of all the products contained in this catalogue.

MOD. 01

- Joystick universale brevettato in nylon.
- Sistema semplificato di montaggio alla plancia senza bulloni.
- Contatti: 4 microswitches Honeywell come dotazione standard.
- Impugnatura: conica.
- Posizioni: 4-8 con selezionatore.
- Colore: nero.

ENGLISH

- Universal patented joystick made of nylon.
- Simplified assembly system, mounts in the control panel without bolts.
- Contacts: 4 Honeywell microswitches fitted as standard.
- Handle: cone-shaped.
- Positions: 4 or 8 selectable.
- Colour: black.

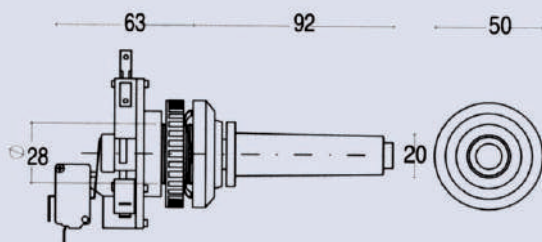

MOD. 02

- Joystick brevettato in nylon con pulsante incorporato.
- Sistema semplificato di montaggio alla plancia senza bulloni.
- Contatti: 5 microswitches Honeywell come dotazione standard.
- Impugnatura: conica.
- Posizioni: 8+1.
- Colore: rosso/ nero.

ENGLISH

- Patented joystick made of nylon with pushbutton on top.
- Simplified mounting system into the control panel without bolts.
- Contacts: 5 Honeywell microswitches fitted as standard.
- Handle: cone-shaped.
- Positions: 8+1 selectable.
- Colour: red/ black.

MOD. 02/P

- ❑ Joystick universale brevettato in nylon.
- ❑ Sistema semplificato di montaggio alla plancia senza bulloni.
- ❑ Contatti: 4 microswitches Honeywell come dotazione standard.
- ❑ Impugnatura: sferica.
- ❑ Posizioni: 4-8 con selezionatore.
- ❑ Colore: rosso/ nero, blu/ giallo.

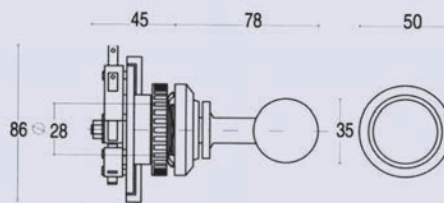

Disponibile anche nella versione:

Mod 02/P mini Joystick con impugnatura corta.

Mod 02/P extra Joystick con boccola filettata lunga, adatto al montaggio su plancie in legno o di spessore considerevole.

ENGLISH

- Universal patented joystick made of nylon.
- Simplified mounting system into the control panel without bolts.
- Contacts: 4 Honeywell microswitches fitted as standard.
- Handle: round - shaped.
- Positions: 4 or 8 selectable.
- Colour: red/ black/ blue/ yellow.

MOD. 010

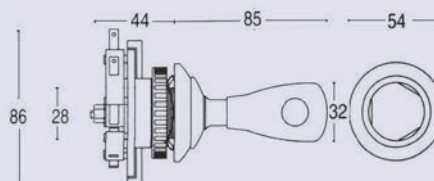

- ❑ Joystick universale brevettato in nylon.
- ❑ Nuovo design dalle linee morbide, impugnatura più maneggevole ed ergonomica.
- ❑ Sistema semplificato di montaggio alla plancia senza bulloni.
- ❑ Contatti: 4 microswitches Honeywell come dotazione standard.
- ❑ Posizioni: 4-8 con selezionatore.
- ❑ Colore: tutte le combinazioni di rosso/ nero, blu/ giallo.

Disponibile anche nella versione:

Mod 010/ L extra - Joystick con boccola filettata lunga adatta al montaggio su plancie in legno o di spessore considerevole.

ENGLISH

- Universal patented joystick made of nylon.
- New soft design, more handy and ergonomic handle.
- Simplified mounting system into the control panel without bolts.
- Contacts: 4 Honeywell microswitches fitted as standard.
- Positions: 4 or 8 selectable.
- Colour: all the combinations of red/ black and blue/ yellow.

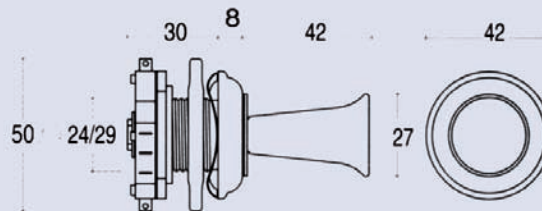

mini joystick

MOD. 011/ SM24 e 011/SM29

- Joystick in nylon.
- Sistema di montaggio brevettato senza bulloni.
- Foro di montaggio: 24mm - 29mm
- Microswitch: 4 sub-miniature in dotazione
- Posizioni: 8.
- Colori: rosso/ blu/ nero/ verde/ giallo.
- Colore della base: nero satinato.

ENGLISH

- Minijoystick made of nylon ideal for small control panels.
- Simplified mounting system into the control panel without bolts.
- Mounting Hole: 24mm - 29mm.
- Contacts: 4 sub-miniature switches fitted as standard.
- Positions: 8.
- Colour: red/ black/ blue/ yellow/ green.
- Base colour: glazed black.

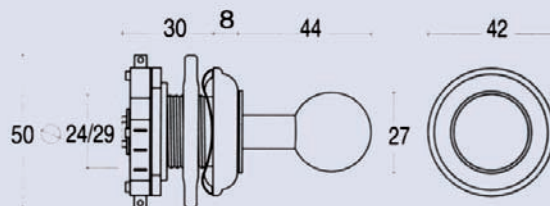

MOD. 012/ SM 24 e 012/SM29

- Joystick in nylon.
- Sistema di montaggio brevettato senza bulloni.
- Foro di montaggio: 24mm - 29mm
- Microswitch: 4 sub-miniature in dotazione
- Posizioni: 8.
- Colori: rosso/ blu/ nero/ verde/ giallo.
- Colore della base: nero satinato.

ENGLISH

- Minijoystick made of nylon ideal for small control panels.
- Simplified mounting system into the control panel without bolts.
- Mounting hole: 24mm - 29mm.
- Contacts: 4 sub-miniature switches fitted as standard.
- Positions: 8.
- Colour: red/ black/ blue/ yellow/ green.
- Base colour: glazed black.

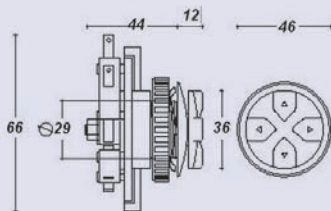

MOD. 021

- ❑ Joypad universale in nylon.
- ❑ Sistema semplificato di montaggio alla plancia senza bulloni.
- ❑ Contatti: 4 microswitches Honeywell ultraleggeri come dotazione standard.
- ❑ Posizioni: 4-8.
- ❑ Colore: tutte le combinazioni di rosso/ nero/ blu/ giallo.
- ❑ Foro di montaggio: 29mm.

ENGLISH

- Universal joypad made of nylon.
- Simplified assembly system, mounts system in the control panel without bolts.
- Contacts: 4 soft-tuch Honeywell microswitches fitted as standard.
- Positions: 4 or 8 selectable.
- Colour: all the combinations of red/ black/ blue/ yellow.
- Mounting hole: 29mm.

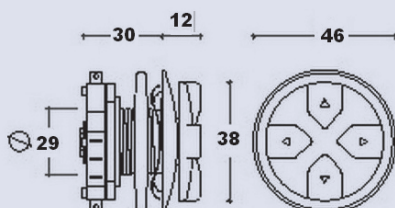

MOD. 021/ SM29

- ❑ Joypad universale in nylon.
- ❑ Sistema semplificato di montaggio alla plancia senza bulloni.
- ❑ Contatti: 4 subminiature switches come dotazione standard.
- ❑ Posizioni: 4-8.
- ❑ Colore: tutte le combinazioni di rosso/ nero/ blu/ giallo.
- ❑ Foro di montaggio: 29mm.

ENGLISH

- Universal joypad made of nylon.
